President's Message

Happy June Flyfishers! So far it seems like it's been a cool and wet spring, but I guess folks who live in a desert shouldn't complain about a little rain. We are going to try a couple of new ideas this month – video conferencing for our June meeting (with a presentation) and a Trip Report section in the member's area of the website. We've held a few board meetings in May using Zoom and they have worked out really well, so we're going to try a different web-based platform for our June meeting. Mary will be sending out the instructions so everyone will have all the info you need to view and participate. For the Trip Reports, submit it to me or Mary and we'll send out an email blast to the club alerting you to the report on the website, where you can sign in and view it. We're trying to keep them fairly current, so don't wait too long to submit it after you've gone fishing. By now you've seen a couple of them from May, so you can see the format and recommended info to include. We are also adding a "Tips & Techniques" section to our website. Members can submit ideas to Mary and me that they use regularly for everyone's benefit, similar to the ones I've been putting in the newsletter each month. Both of these new sections will be in the Member's area. We're also working on having some kind of "virtual auction" for our banquet donations (more on that when we get it dialed in).

And speaking of Banquet Donations - any club member who donated to this year's cancelled Banquet who wants their donation back (no questions asked!) should contact Lee Ann to arrange pickup. **If we don't hear from you, we will assume you want your donation auctioned off at future club meetings!**

Make sure your contact information in our directory is up to date so you don't miss out on upcoming outings and other events as we all try to return to some form of normalcy for the 2020 fishing season.

Cool video of the month:

Trout Fishing - Predator Prey Relationship. Noted author and educator, Phil Rowley, goes into great detail to discuss trout and the predator - prey relationship and how it relates to presentation options, fly patterns and rigging techniques. Lots of solid information for any angler who wants to understand how trout feed in the fall in lakes and what it takes to catch them! Phil has been a presenter for COF recently; he has a wealth of lake fishing knowledge, and is a great guy to boot! [Click Here](#)

As always, thanx for being a part of this great Club, and feel free to let me (or any board member) know if you have ideas for improvement, especially in the new ideas I've talked about here. Get out and fish (safely of course)!

GENERAL *virtual* MEETING:

JUNE MEETING WILL BE VIRTUAL! LOOK FOR AN EMAIL TO COME THAT EXPLAINS THE DETAILS.

WILD WOMEN OF THE WATER

Women and the Sport of Fly Fishing

Some years ago, when I first entered the sport of fly fishing, I went in search of a Gortex rain jacket specifically for fishing. I found many in men's sizes. I tried a small. Simply would not work. Whenever I visited my son in Jackson Hole, we would go to what was then the Jack Dennis Outfitters fly shop just to snoop around. He was usually in his police uniform. He called it "community policing." He community policed that place a lot.

There on a sale rack, deeply, and I mean deeply discounted, I found my Simms Women's size medium Gortex jacket. Maybe there weren't a lot of women fly fishers vacationing in Jackson Hole in those days. Thankfully, Simms didn't muck it up with flowers or pink accents.

More often than not, in the past, the fly fishing industry's response to the new demographic of women entering the sport was to offer gear that was designed by guys for guys and slap a bit of pink or flowers on it and market it for women. We've come a long way. Kudos to the industry.

Women are the fastest-growing demographic in the sport of fishing in general and especially in fly fishing. Today's women have an independent streak, money to spend, and a willingness for adventure. Women make up about 31 percent of the 6.5 million Americans who fly-fish. About 44% of youth that are interested in fishing are girls (The Outdoor Foundation).

"Currently, there are more female guides, more fly fishing ambassadors, pros and reps, and even more fly designers and writers that are influential figures in the fly fishing industry. The industry is starting to pay attention to the needs of the female angler" (Geri Meyer, founder, and owner of Athena & Artemis Women's Fly Shop).

There are excellent resources for women easily accessed on the internet. Here are a few: Federation of Fly Fishers International Women Connect, Orvis 50/50 Initiative, United Women on the Fly, Dun Magazine (online magazine, written by women for women).

Looking for gear to fit you? A recent review of one major wader manufacturer had 19 sizes for men and 7 for women. Check out Miss Mayfly for custom waders designed to fit your body, excellent quality, and reasonably priced. Looking for gear for women reviewed

We will be offering this month's program in a visual format. (*Note: There will be additional information how and when to access this month's program coming in the next few weeks.*)

This month we visit Baja and the outstanding fly fishery this destination provides. **Peter Bowers**, proprietor of **The Patient Angler**, will be providing the program and will highlight his 40 years of salt water fly fishing experiences visiting Baja. His presentation will cover where to go and how to fish for Dorado, Roosterfish, Skipjack, Bonita, and Yellow Fin Tuna to name a few of the myriad of fishes that roam the waters of Baja.

After moving to Oregon many years ago, fly fishing became obsession to him and a driving force in his life. As the owner of The Patient Angler he enjoys the opportunity to enhance people's lives by passing on the experiences he has gained over his years of fly fishing, and feels that helping anglers get started in fly fishing to be the most rewarding part of his job.

Aside from his passion for chasing saltwater fish on the fly he is an avid steelhead and trout fisherman on our local waters.

by women? Check out Athena & Artemis Women's Fly Shop or Dun Magazine. Encourage your local fly shop to support women anglers and then buy local!

When I first began in the sport, the only women's fly fishing group that I knew of was Sisters on the Fly. I joined. My membership number was somewhere between 100 and 200. Today they have over 13,000. The first fly fishing club I joined, at the first club meeting, I was one of 4 women in a group of about 70. Only 2 of us actually fished. Today, we have 99 women registered in our Wild Women of the Water group!

We are fortunate to be a part of a terrific group of women fly fishers. Stay connected, share your knowledge, mentor others, embrace and support women's initiatives in the sport.

EDUCATION

Tim's Tips #4: Euro-Nymphing

As more and more of our members are getting into Euro-nymphing, I often get asked about setting up the gear and different methods of fishing it. There are several ways to do it, but one good source of info I've found (and used) is Jeff Perin's Fly Fisher's Place website (<https://flyfishersplace.com/how-to/how-to-czech-euro-nymph/>). He divides it up into 4 sections: Rigging, Casting, Gear, and Help. Whether you're a novice just getting into it or a seasoned vet, the site is worth checking out to see if there's maybe a trick or 2 you can learn.

- TIM QUINTON

CGTIMQ@GMAIL.COM

Virtual Entomology By Mary Ann Dozer

**TUESDAY, JUNE 9 AND WEDNESDAY, JUNE 10,
6:00 PM TO 7:30 PM**

Bugs and flies' names may seem like a foreign language. It doesn't have to be! This online class is a practical overview of the four major aquatic insects and their respective lifecycles. Mary Ann's framework will give you the foundation to break the code for understanding the foreign language of bugs. You'll see photos and videos of the natural

insects and the flies that represent them. This class is for two evenings. Price: \$10/angler. Class size limited to 20 people.

Casting Classes

By Mary Ann Dozer

**ONLINE CASTING - BACK TO THE BASICS
SATURDAY, JUNE 13, 10:00 AM TO 11:30 AM**

Regardless of how many casts you have made, there is always more to learn and apply. This online class will be a mix of casting demonstrations, casting geometry, and drills for you to improve your casting skill. Yes, geometry – and physics. Understanding “the why behind the how” of your cast allows you to diagnose and improve your cast. Make sure you have your rod butt section, a pen with a cap, and a serrated knife to join in. Price: \$10/angler. Class size limited to 20 people.

**ONLINE CASTING – FAULTS AND FIXES
SATURDAY, JUNE 27, 10:00 AM TO 11:30 AM**

When you cast, does your fly and line land as you want it to? Elite casters have subtle moves they make for that perfect cast. In this online demonstration, you'll learn the common faults of casting and learn drills that you can practice to fix these faults. Make sure you have your rod butt section, a pen with a cap, and a serrated knife to join in. Price: \$10/angler. Class size limited to 20 people.

**DRY FLY FISHING SATURDAY, JULY 11, 10:00
AM TO 11:30 AM**

You know the feeling – your line & fly land in unison with the current, and you get that perfect drift to a rising fish. Can you control whether your fly or line lands first? Is this luck or skill for you? If it's luck, then join in on this online demonstration, and you will learn how vital trajectory and presentation casts are. With this knowledge, you'll increase the number

of perfect drifts, next time you are on the water. Price: \$10/angler. Class size limited to 20 people.

VIDEO ANALYSIS OF YOUR FLY CASTING

Today's technology makes it possible to receive remote coaching on your fly casting. *Hudl Technique* is a mobile device application that allows you to record your video and send it to Mary Ann Dozer. She will review your video, make mark-ups, and voice-over suggestions. The two of you will then meet, via Zoom Meetings, to discuss the analysis and learn practice drills to improve your fly casting.

For the COF members that attend one or more of the above Fly Casting Classes, you receive a reduced price of \$50 for a private video analysis of your cast. Please contact Mary Ann Dozer (flyfishingpursuits@gmail.com) directly to schedule your video analysis.

COF Cancellation policy: If you wish to cancel, please contact us a minimum of three days prior to the class and your money will be refunded. Otherwise, all registrations after the minimum cancellation of 3 days prior to class will require payment whether attended or not.

EDUCATION@COFLYFISHERS.ORG

.....

Mary Ann Dozer was a late bloomer to fly fishing but instantaneously became an avid angler on a trip to Yellowstone Park in 1995. This high energy passionate angler shares her love for flyfishing to women and men throughout the United States. Mary Ann considers

casting an art form and the core skill to increase your catching. She is adept at combining her responsibilities as a guide and an FFI Master Casting Instructor. She is known for her enthusiasm, expertise, and patience as an instructor/guide. She is starting her 12th guide season. She guides Central Oregon for the Fly Fisher's Place out of Sisters, Oregon. You can learn more about Mary Ann at flyfishingpursuits.org.

NEXT CAST FLYFISHERS

The three day fly fishing camp on June 15,16,17 in cooperation with Redmond Park and Rec. has been canceled. I'm hopeful and plan on holding the three day fly fishing camp next year in June.

LIBRARY

Library services will begin once monthly meetings restart.

A portion of our library collection, including DVDs and some books, will be available at monthly meetings for check out. Additionally, you can find a book on our website's library collection list <https://coflyfishers.wildapricot.org>, and email the librarian to bring it to the next meeting library@coflyfishers.org.

The librarian arrives at the meeting early to give members extra time to look for items before the meeting starts. Sign in on our website <https://coflyfishers.wildapricot.org>, click on Members Area and select Library to see a list of our books. If you have any questions or comments, feel free to email Helen Guerrero-Randall, the club librarian: library@coflyfishers.org

- HELEN GUERRERO-RANDALL
LIBRARY@COFLYFISHERS.ORG

BOARD BITS

A REVIEW OF THE 2 MAY COF BOD MEETINGS...BOTH BY ZOOM. 5/7/2020

Banquet – All the donors have been contacted. Most told us to keep their items. A thought arose about changing the banquet date...perhaps Fall or later in the Spring. The point is moot, if we don't have a banquet chair!

Budget – Covid-19 has impacted our budget. A second meeting will be held to address this issue. At this meeting, we will also discuss how we want to operate in the future. How can we continue to make the club relevant? We will meet next Thurs.

Dave Dunahey is the COF representative to the Upper Deschutes Basin Study. He gives the BOD regular updates. His name will be added to our newsletter positions' list and also to the website's list of positions.

Conservation – Tom S

...Big Summit Territory Wild Horse Management. There are 31 miles of fish bearing habitat within the territory. They are looking at horse population reduction. The BOD has no expertise in this field. We will not become involved.

...Steelhead Falls – Tom delivered his native plants. We are still waiting for their "ask".

...Trout Creek, Whychus Creek & Metolius River – Tom is talking to ODFW.

Membership – Sue & Bob – Sue has officially handed off membership to Bob. Congratulations! A dues survey was discussed.

Programs – Art – The June meeting at the Sr Center is cancelled. Art will talk to Peter of the Patient Angler, our June presenter. Would "ZOOM" work? Mary & Kari will research.

Education – Jeff – All programs are cancelled. Jeff is researching offering classes online. YouTube is a possibility.

Outings – LeeAnn – LeeAnn is researching virtual outings.

Wild Women of the Water – Sue – We have 98 members. Members are connecting through Facebook and monthly emails.

Kokanee Karnival – Frank – Frank is considering cancelling the Fall Streamside program. Planning with the schools needs to be done now and the schools are closed. Also, field trips may be cancelled next year. The majority of the volunteers are also older than 60. It was suggested that we cancel...

Welcome Committee – Tom W – Tom made 33 calls to new members. He had a great response.

Facebook – this might be a great way to connect our members. LeeAnn will talk to Molly about access.

HOW DOES COF MAINTAIN RELEVANCE? 5/14/2020

Monthly meetings – Churches use ZOOM successfully each week. We have a ZOOM membership at \$15 for one facilitator. Each additional facilitator is \$15. Mary will change over to G Suites on June 11. It comes free with our internet subscription. This used to be HangOut. Mary will work with Peter at Patient Angler for our regular June program. We will try this out... LeeAnn will work on a raffle. She has raffle items and options for holding a virtual raffle.

Education – Jeff Perrin will not be holding in-person casting classes, at this time. MaryAnn is working on a ZOOM casting class. She has already taught a ZOOM entomology class for the Wild Women 101 class. Liz will check into it all.

Website – How can we guide people to our website and make it more relevant? Add a "trip report" section and put it in the website members' area. Also add a "Tips & Techniques" section to our website.

Outings – Lake outings shouldn't be much of a problem for distancing. BLM rules say that you can float a river starting May 21. They will be limiting numbers. LeeAnn will try to organize an outing in the next few weeks.

Budget – Liz will be our new treasurer. Renee and Liz will be transitioning in the next few months. Our budget depends on the auction. Will we hold just a dinner, or a dinner and an auction? We still have no chairman. Our budget also depends on dues. We will do a survey of our membership to see what they think about dues. We need to move our retreat to Oct, so we can discuss dues and make a final decision. Our dues statements should go out by Nov 1. Our survey committee is John, Bob, Fred, Frank & Mary. A survey schedule was developed.

- KARI SCHOESSLER
SCHOESSLER.KARIVAN@GMAIL.COM

HALF PINT MAY (HPM)

Aaron Freed, Blue Ribbon Anglers, created a cool midge nymph called the “Half Pint”. Check it out on their web site under “fly tying videos”. With a change in the materials you can create a “pheasant tail nymph variant” that imitates well the blue-winged olive (BWO) and pale morning duns (PMD) nymphs common in central Oregon streams. More than once this pattern has saved the day for me. I tie the HPM in two sizes - #18 (spring) and #20 (fall) for BWOs and #16 (early in hatch) and #18 (late in the hatch) for PMDs. I tie it on both curved and straight nymph hooks – your preference. As for beads, I use small, 2 mm gold brass for #18 and 20 hooks and 2.3/2.4 mm for #16 hooks. For low clear water (non-irrigation season on the Crooked River) I will switch to a small silver lined glass bead. Usually, I will fish 2 flies with a midge pattern (Aaron’s HP is a good start) as a dropper (top, closest to the rod) and the HPM as the point fly. I use a drop shot rig to fish the flies close to the bottom. In shallow water (less than 18”) I will fish only the HPM. You can change the thread colors (e.g., light olive with chartreuse small wire rib, or black with gold or silver wire, red thread with gold wire). You can also omit the legs or use fluorescent orange thread to make a hot spot collar. Experiment!

Materials:

Hook: Size 16, 18, or 20 curved or straight shank nymph hook

Bead: 2.3/2.4 mm gold, copper, or black for #16, 2.0mm for #18 and 20

Thread: 8/0 rusty brown Ultra thread

Tail and legs: black Krystal flash

Rib: small Ultra thread – gold or copper (I often use fluorescent orange)

Abdomen: Tying thread

Wing case: medium mirage opal tinsel

Thorax: Ice Dub black peacock

Legs: Black Krystal flash (2 per side)

Tying Instructions

1. Debarb hook, add bead, and start the thread behind the bead
2. Attach 4, 2-inch strands of black krystal flash to the hook behind the bead. Separate the 4 strands nearest the bead with 2 to a side.
3. Wrap thread down the hook covering the krystal flash to the bend of the hook. Cut tail fibers to the length of the abdomen.
4. Attach rib and make a slightly tapered body about 2/3rds of the hook shank (remember “thin to win”). Then rib the body with 3–4 spiral wraps.
5. Attach a 1.5” piece of mirage opal tinsel. Dub a thorax with ice dub. You don’t need much – see photo.
6. Fold 2 krystal flash fibers along each side and tie down as legs. The legs should be a little longer than the thorax. Fold the wing case over and tie down by hook eye. Whip finish and place a drop of glue or UV resin on the knot.

Redington Original model Dually 4 wt switch rod.

This is a great 4 wt trout switch rod, casts large drys or heavy nymph rigs with ease. This rod is new, never been cast; it is 10'9" long, 4 piece. Asking \$150, retail is \$250. This is NOT the new model Dually

Patagonia Rio Gallegos Zip-Front Waders, men's Large, These are Patagonia's top of the line waders, less than 1 year old, and in excellent condition. Men's large, foot is 9 - 11. See Patagonia website for sizing info. Minimal wear. I washed them so you have a nice clean pair of waders. Zipper is particularly nice for ease of entry and when nature calls! Price now reduced to \$300, retails for \$600

THE FOLLOWING ITEMS ARE FOR SALE BY CHARLIE SCHILLINSKY: Contact Charlie Schillinsky at 541-213-6121 or cell 541-213-6117

Outcast 9' Pontoon Boat with Fishing Buddy Fish Finder, Oars, and Anchor. \$500

Complete Pro Rod Building Set up & supplies to include:

1. Pro Rod Jig with 4 thread spool holder/tensioner.
2. Three Rod Jig Bases

3. Folding leg 6' table to which I fastened two Rod Jig bases
4. Thread, numerous colors, Size A, high capacity spools.
5. Double rod dryer with matched front Cradle
6. Epoxy Finish Mixer with Stir Rod And necessary cups
7. Cork Grip Turner with ball bearing cradle
8. Assorted feathers, including Jungle Cock capes, for feather inlays.
9. Cork Rings:
 - 1 big bag of B grade rings without holes
 - 130 Flor Grade (very best) cork rings. My wholesale cost on these rings was \$2.00 each.
 - 9 bags of various colors and styles/colors of cork rings as I used on the club rods
10. Rubber Tubing used to make rings for securing guides on blank. Enough to do a minimum of 50+ rods
11. Thread packer and other tools
12. 1 2 canisters, 4 oz Rod Bond for gluing cork rings together and for gluing grips and reel seats to blank.
13. Partial Containers of Rod finish, heavy, 2 Partial Containers of Rod Finish, light, plus syringes for measuring
14. Bunches of various guides, reel seats and pre made grips
15. Blanks:
 - 1 ea 2wt, 82", 3 pc
 - 1 ea 3/4wt, 8'6", 2pc
 - 1 ea 4/5 wt, 10', Switch, 2 pc
 - 1 ea 4wt, 7' 6", 2 pc
 - 2 ea 4wt, 9', 4 pc
 - 1 ea 5wt, 9', 4 pc w/finished grip and reel seat installed
 - 4 ea 4/5wt, 11', 3 pc, Czech nymphing blank (could be switch rods)
 - 1 ea 5wt, 9', 3 pc, Pink blank
 - 2 ea 4/5 wt, 7' 6", 3pc
 - 2 ea 9.5', 6wt, 4pc
 - 1 ea 9', 6wt, 4 pc
 - 1 ea 9', 8wt, 4 pc
 - 1 ea 9', 8wt, 2 pc with fighting butt, finished grip and reel seat attached.
 - 1 ea 8.5', 3wt, 7 pc (pack in rod)
 - 1 ea 9', 5wt, 7 pc (pack in rod)

These blanks would cost a min. of \$819.00 to purchase

Asking price \$600.00. This list does not include other minor tools that I will supply. I will also provide the purchaser with lessons on various aspects of rod building. I will not sell these items piecemeal. I am selling this

complete outfit because arthritis in my hands has caused pain and other difficulties too distracting for me to continue my joy in building rods for others.

Personal used rods, all built on Dan Craft FT blanks, \$100 each. 2wt, 3wt and 4wt. Reels and floating lines available for 2 and 3 weights.

MEMBERS: Got a fishing related item to sell? Ads are free and run for one newsletter. If the item is not sold please resubmit the advertisement for the next month's newsletter. Submit ads to classifieds@coflyfishers.org before the middle of each month.

FLY SHOP CORNER

Fly and Field Outfitters

Fly and Field Outfitters has established both summer hours and a Guide Service plan for the 2020 summer. So much has been in flux over the last couple months and we are mindful of our community concerns. For the foreseeable future the shop will be open from 8-6 Monday-Friday and 8-5 on the weekends. We are limiting the number of customers in the shop at any one time, so we apologize if you have to wait outside for a few minutes. We've been trying our best to get folks in and out so the next person can get their shopping done. But you know how it goes in a fly shop!

As for the Guide Service, we have worked diligently with our partners in the National Forest and BLM, along with state government and the Oregon State Marine Board to establish and implement a set of guidelines we feel will allow folks to get out with guides in the safest possible way. Please visit our website flyandfield.com for our "Covid Clause".

The usual In-Store Educational Events have all been put on hold. We will continue to host Facebook Live events throughout the summer. Please visit our website and get on our Newsletter Mailing List to hear all about what's going on around the shop.

A FLY SHOP UNLIKE ANY OTHER.
